OPEN REBELLION

MUTINEERS ISSUE STATEMENT

Rebel Torpedo Boats Secure Supplies by Show of Force—Foreign Vessels and Ports Declared Inviolable

Odessa, July 3. (Delayed).—Reports have been received here that a torpedo boat entered the harbor of Akkermann and demanded coal and provisions. The authorities refused to furnish those, whereupon the torpedo boat fired two shots. She obtained the supplies she required.

Theodosia, Crimea, July 6.—The mutineers of the Kniaz Potemkin today formally raised the standard of rebellion and issued the following statement: "The crew of the Potemkin notify Foreign Powers that a decisive struggle has begun against the Russian Government. We consider it our duty to declare that we guarantee complete inviolability for foreign ships navigating the Black Sea, as well as the inviolability of foreign ports."

THE MAYOR RETURNED.

Mayor McKenzie, returned last evening from his trip to Saskatoon after the Board of Trade convention. The mayor was at the city hall this morning immersed in civic business in an effort to make up for his few days' absence. The assessment is receiving a good deal of attention just now, and it is expected it will be completed in all its complications, before long.

The mayor is enthusiastic about his trip to Saskatoon. In his opinion that town has the most progressive board of trade in the Territories. They took charge of a party of forty-five delegates from the Regina convention as their guests and paid all expenses of a visit to the town of the north Saskatchewan country. The town itself, Mayor McKenzie says, is a beautiful one, its situation being almost ideal. Its population numbers about 2500. Preparations are now being made to install waterworks.

The delegates took a trip into the country and found the most promising indications of an excellent crop, especially that of wheat. The town survey is particularly good, every street being 100 feet wide. Mr. McKenzie says that Saskatoon is going to put up a big fight for the capital of Saskatchewan province.

In speaking of the Regina convention, the mayor expressed himself as well satisfied with the meeting. He said there was a uniform absence of sectionalism, and the exchange of ideas tended to broaden the minds of those who met, and was developing a business fraternity among the cities of the west that was bound to be of great future advantage.

The delegates, he said, were all enthusiastic in anticipation of their visit to Edmonton next year, and the opinion was freely expressed that the next would be the record meeting of the affiliated boards of trade.

BOTH BILLS PASSED

THIRD READING LAST NIGHT

"Surrounding Attack" of The Opposition Revealed in a Variety of Amendments Offered

Ottawa, July 5.—Both autonomy bills were read a third time tonight. On the third reading several amendments made and defeated during the committee stage were moved so that the voter could be recorded.

Mr. Borden's amendment to substitute sub-section 93 of the R. N. A. act for clause 16 was defeated by 169 to 41.

Mr. Bergeron's amendment in favor of denominational schools was defeated by 118 to 77, and (Bourassa's amendment in favor of the original clause 16 met a similar fate, being defeated by 132 to 7.

An amendment by Col. Hughes in the terms of the educational clause of Haultain's bill was defeated by 106 to 37. Monk's dual language amendment was also defeated. Scott moved an amendment that C. P. B. exemption from taxation would not prevail in the North-West, which was lost, 11 for and 118 against. Several other amendments were put and all lost.

WANT LARGER INDEMNITY.

Ottawa, July 6.—A round robin has been presented Sir Wilfrid Laurier, asking for an increase of the seasonal indemnity to two thousand five hundred.

THE NEWS OF THE DAY

IN CONDENSED DESPATCHES

Brief items from many sources tell the story of the day's events.

VETERAN G. T. SOLICITOR DEAD.
 Belleville, July 4.—John Bell, K.C., senior consulting solicitor of the G. T. R. Company, died at an early hour this morning. Deceased was in his 84th year. He was born at Strathroy, Tyngs County, Ireland, on June 10, 1822. When ten years of age with his parents, he came to Canada and spent some time in Ontario, his home, where he received his early education. He subsequently graduated from Victoria University, and afterwards studied law in Toronto with the late Chief Justice Haggarty, and Hon. John Crawford. Passing with credit he commenced practice in this city in 1849. On October 2, 1852, he was appointed solicitor for the G. T. and in 1856 was created Q. C.

AFTER THE C.P.R.

Secretary Sims, of the Edmonton Exhibition Association, is after the C. P. R. This morning he has written General Passenger Agent McPherson, of Winnipeg, asking for an explanation as to why parties down the line had to pay regular rates to visit the fair when there was a possible arrangement by which they were to get single fare rates.

Mr. Sims had to straighten out another matter shortly before the exhibition began. He received a letter from the Acting Assistant General Freight Agent, of Calgary, to say that no reduced rates would be given on race horses attending the meet here. A wire to Vice President Whyte put this affair right at once.

The performers sent up by the Winnipeg attraction company were also refused reduced rates and Secretary Sims is now applying for a rebate.

News in Brief

It is expected that the tariff commission will be at work by the end of September.

STRATHCONA RACES

MIX UP IN THE FOURTE EVENT

The Other Races Good Contests of Speed—About 2,000 People Present.

The Strathcona races passed off successfully and pleasantly yesterday, with the exception of the fourth race. The attendance was rather disappointing, there being less than two thousand people on the grounds, but this is accounted for by the people having a surfeit of races recently. The day was fine and the track in good condition. A slight shower about five o'clock caused a half hour's delay, but, as the fastest heat of the meeting was trotted after the rain, it did not injure the track much. The first race called was the 2:25 trot or 2:40 pace, three entries, Mambrino Gift, Fleet Wilks, and Henry V. Fleet Wilks was played as favorite and was somewhat generally expected to win the race on account of his performance in this city last week, but he was beaten all the way and never looked ahead of the black horse. It was a good race, the horses working well and trotting to win. The result was as follows:

Mambrino Gift.....1 1 1
Fleet Wilks.....2 3 2
Henry V.....3 3 3
Time 2:24 1-4-2:23-2:23.

In the second race Young Pilgrim rather disappointed his admirers. He was nowhere in the first heat, and in the second though he showed a burst of speed at the start and led until the stretch he gave out and only made second place. Za Za, however, is a pretty fast compair. The race was trot in three half mile heats and the result was:

Za Za.....1 1 1
Young Pilgrim.....2 3 2
Katie Bell.....3 3 3
Time 51-50 1-2.

The third race was the free-for-all first or pace, best three in five. In the first heat Dessa March led the field at the way ahead trotting a storm, and it was only by a mighty effort that Starkey overtook her and won by a narrow margin. In the second and third heats, however, Clearwater came to the front and took second place leaving Dessa and Sam-

uel T. to fight for third, resulting in a win for the mare. This race was a good one. The result was as follows:

Starkey.....1 1 1
Clearwater.....2 2 2
Dessa March.....3 4 3
Samuel T.....4 3 4
Time 2:21 1-2-2:21 1-2-2:21.

The fourth race was a five-eighth mile run, best two in three. This race was a mixup and though the judges tried to make a fair contest of it they were rather unsuccessful. There were just three entries. To an onlooker it appeared as though Mary L. and Ellis Glen were up against O'Day.

The horses went to the starting place, the barrier was thrown back and the word given to go. It was immediately recalled, so it was alleged but O'Day went on to the winning post, the other horses not coming around. The judges after consultation declared the heat off. When they went back again O'Day won easily with Mary L. second. In this heat O'Day got away first and the other horses didn't get near him. In the next heat Ellis Glen came first and Mary L. second but she was set back for fouling O'Day and he was given second and in the following heat O'Day and Mary L. ran what looked like a dead heat, but Mary L. led by a small margin, and the jockey who rode Ellis Glen was disqualified for fouling. When Ellis Glen won Mary L. fouled O'Day and when Mary L. won Ellis Glen fouled O'Day. The owner of the horse refused to run any more and it is understood claims the race on his first heat. The other two horses ran another heat and Mary L. won. The result of the race as given by the judges was as follows:

Mary L.....2 3 1 1
Ellis Glen.....3 1 3 2
O'Day.....2 2 w'd'n
Time 38 1-4-38-39 1-2-39.

The final race was the novelty and it was a surprise. Shannon Side took the lead and ran like a hero. Like Alexander the great, nothing but the world would satisfy him so he carried off the quarter the half, the three-quarters and the mile, had he not swerved out suddenly as he turned into the stretch he would have won all with ease, as it was Gawain gave him a hot chase for the mile post. The entries were: Gawain, Wild Het, Katy Bell and Shannon Side, with the result as mentioned. The time was quarter 25 1-2, half 52, three-quarters 1:19 and the mile 1:48. The wild steer performance took place after the races the same as yesterday evening.

MADE BY HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicragua district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

Comparative Population of Constituencies

(Extract from the Hansard report of a speech by Hon. F. Oliver on the Alberta schedule.)

If the sole question with my honorable friends opposite is as to what lies north of township 38 and what lies south of that township, and there is no question as to the definition of the boundaries between the constituencies, then it is only a question as to whether there are as many people north of township 38 as there are south of township 38. We are all agreed that the dividing line should be township 38. We do not want a commission of judges to decide that, and if we take the census we find there are more people north of 38 than there are south; we find there are enough people to entitle the district north of 38 to 13 members and the district south of 38 to 12 members. If the honorable gentlemen opposite will not accept the census as the basis throughout the entire district of Alberta, they have no title to stand here hour after hour ringing the changes and asking questions based upon the census figures for the district of Athabasca. If they want us to take an estimate in one part of the country, let there be an estimate all over and if it is to be the census in one part let it be the census all through. As to the horror that has been expressed by gentlemen opposite about the disparity of population in the different constituencies of Alberta, I might point out that my honorable friend from Argenteuil (Mr. Perley) and my honorable friend from St. Antoine (Mr. Ames) range the changes on this question. Did these gentlemen ever hear before of a disparity between the number of votes in one constituency as compared with another? They wanted to know, why at took two men in Calgary to be equal in value to one man in Stony Plain, and they seemed to think that was a power. Well, my friend from Argenteuil represents a constituency with a census population of 16,197 and my friend from St. Antoine represents a constituency with a census population of 17,650. It would appear that it takes three men in Argenteuil to equal one man in St. Antoine. In the county of Huntingdon represented by a Conservative in this House there is a census population of 13,970, and in the almost adjoining district of Maisonneuve represented by the Minister of Marine and Fisheries, there is a population of 65,158, so that it takes five men in the constituency of Maisonneuve to equal one man in the constituency of Huntingdon. And yet these gentlemen opposite are amazed that there is a discrepancy between the constituencies in the district of Alberta. The constituencies of St. Antoine and Argenteuil and Huntingdon and Maisonneuve are, so to speak, within a stone throw of Ottawa; they are old constituencies, constituencies in which the conditions have been understood from generation to generation; the redistribution of these constituencies has been under the control of the Conservative party for years and years, and yet they never thought of regulating these discrepancies although when the constituencies in Alberta come up for consideration they are overwhelmed with amazement that there should be a discrepancy at all. Parliament after Parliament, redistribution after redistribution, census after census, these discrepancies in old constituencies have been tolerated by Conservatives, but now they threaten that they will keep the House in session until the snow flies before they will submit to a discrepancy in the far off province of Alberta. They will go through these constituencies with a jack plane and a plumb line and square and a level, and they will see that they are pared right down to a hair's breadth of equality, or they will keep this House in session until next Christmas. Well, if these gentlemen want any credit for a sense of justice they have a noble work to do right at their doors in regard to matters they are better acquainted with than they are with those of far off Alberta. My honorable friend from Argenteuil (Mr. Perley) might show a sense of justice by resigning his seat and bunching his constituency up with one of the other small constituencies so as to remove the injustice done to his friend from St. Antoine (Mr. Ames). This would be a practical display of his sense of justice, but I have heard no mention that he has any intention of sacrificing himself on that altar.

But he is prepared to sacrifice the well-being of this country and of this very district of Alberta which he supports to protect; to sacrifice the time and energy of members of this House; but he will not sacrifice his own seat to his sense of justice. This condi-

tion which I have referred to is not confined to the province of Quebec; it prevails in Ontario as well. I see my honorable friend from Peel (Mr. Blain) sitting right alongside the honorable member of St. Antoine (Mr. Ames). My honorable friend from Peel has been a member of this House for two Parliaments. He sat in the previous Parliament for a constituency which according to the census had a population of 13,687, as against 47,000 in the constituency of the honorable member for St. Antoine. But we do not need to go to the province of Quebec to show a discrepancy. While the honorable member for Peel sat here with 13,687 people at his back the honorable gentleman (Mr. W. F. Macdonald) who then represented East York sat here as a representative of 40,465 people. Three of the people represented by the then member for East York had just as much right in this Parliament as one of those represented by the honorable member for Peel. But my honorable friend from Peel did not offer objection to that condition of affairs. I know that the wrong has been to some extent righted since that time; but I have not heard that the honorable gentleman (Mr. Blain) manifested any great enthusiasm in supporting that change. Let me instance the province of Nova Scotia, from which the honorable leader of the Opposition comes (Mr. R. L. Borden), and which he represented in the last Parliament. Of course the discrepancies are not quite so marked in that province as in some others, for reasons which are apparent. The county of Richmond, Nova Scotia, was represented in the last Parliament, as it is in this Parliament, by one member. According to the last census, its population was 37,512. The county of Cumberland, also represented by one member, had a population at the time of the last census of 36,168. This cannot be justified on the ground of difference between rural and urban constituencies, for both of these are rural constituencies. Both these cases were known about when the Redistribution Bill was going through this House in 1903 but I did not hear the leader of the Opposition (Mr. R. L. Borden) make the walls of this chamber ring with denunciations of that condition. If he believes in the principle of equality in representation, that would have been a good time for him to assert his love of fair play. But it was not heard on that occasion, as I understand. He waits until the case of the province of Alberta comes up for discussion and then he joins in the denunciations of unfair treatment on the ground that there is a difference, according to the calculations of his own supporters, of 10 per cent. between north and south. And, according to their own statement, the fairest proposition for redistribution within their knowledge was that of the Provincial, and in that case the very law itself follows a difference of 10 per cent.
